FLOOR PREP | VINYL | CARPET TILE | SHEET VINYL | HYBRID | TIMBER

QBCC LICENCE 1304150

Since 2013

Queensland commercial flooring specialist

Two teams

Dedicated estimating and delivery

Tier-one builders

Mosaic, FDC, Shape Australia, FKG and more

Award-winning

The Witton and The Mowbray, both Master Builders Queensland winners

Complete flooring packages for multi-residential and retirement living, from the lobby to the rooftop, plus multi-floor CBD office fitouts, for the builders and developers shaping Brisbane and the Gold Coast.

Trusted by Mosaic Construction, FDC, Shape Australia, FKG Group, Hutchinson Builders, Inten Constructions, Rohrig and more.

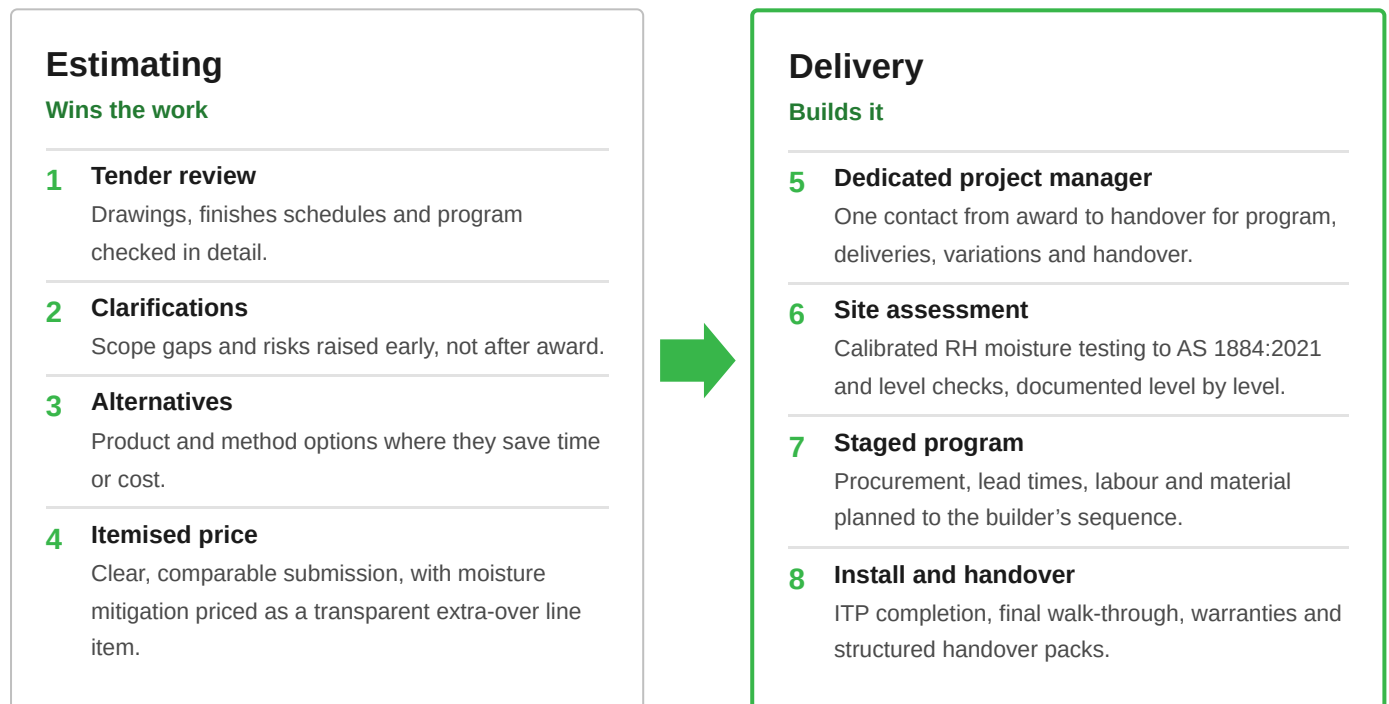

WHO WE ARE

Briz Floors is a Queensland commercial flooring specialist, trading continuously since 2013. We are family-owned and led by founder Brendon Krytenberg, a floorer by trade with a Cert III in Flooring Technology. Five qualified Cert III floorers lead our work, from the founder and senior project manager to the site coordinators who run our crews, within a 19-strong workforce of direct employees and apprentices trained through Apprenticeships Queensland.

Our business is built on repeat work from tier-one builders and developers. We are not a generalist trade contractor. We are flooring specialists, and around 90% of our revenue comes from projects valued at \$500K and above. Our systems, people and procurement are set up for large, staged, multi-level delivery.

HOW WE WORK: TWO TEAMS, ONE JOB EACH

Estimating grows the pipeline. Delivery delivers it. Once a contract is signed, the project moves to a dedicated delivery team whose only focus is that project.

Contract signed, full handover. Your project manager is never distracted chasing the next sale.

SECTORS

Multi-residential	Apartment towers and build-to-rent: apartments, corridors, lobbies, wet areas and amenities.
Retirement living	Apartments and facilities delivered inside operating villages.
Commercial office	Multi-floor CBD fitouts, live tenancies and after-hours works.

WHAT SETS US APART

Dedicated delivery team

Estimating and delivery are separate teams. Your project manager's only job is your project, from award to handover.

Repeat tier-one relationships

Four consecutive towers for Mosaic Construction. Repeat projects for FDC and Shape Australia. Repeat business is earned, not assumed.

Transparent moisture management

Calibrated RH testing on all concrete substrates to AS 1884:2021. Where readings exceed thresholds, mitigation is priced as a clear extra-over line item with trigger conditions, so builders can make informed allowances at tender.

Qualified leadership

Founded and led by a Cert III Flooring Technician, with five qualified floorers leading our projects. Technical decisions are made by people who have laid floors, not just managed them.

Silica compliance

Full RCS controls embedded in all SWMS: H-class extraction, P2 respiratory protection and health monitoring across all grinding and preparation works.

Builder-aligned systems

Digital project management, ITP and SWMS processes, and structured handover packs that meet tier-one reporting and documentation requirements.

Staged multi-level delivery

Substrate preparation assessed and documented level by level, with labour and material programmed to the builder's sequence.

Apprenticeship program

Active apprentice training through Apprenticeships Queensland and direct engagement, investing in the long-term capability of the industry.

WHY BUILDERS CHOOSE US

- Proven delivery of complex, large-scale flooring packages across multi-residential, retirement living, corporate fitout and major retail.
- Builder-aligned processes with hold point discipline and program accountability.
- Reliable delivery under tight programs and live-site conditions, including after-hours and staged multi-level works.
- High-quality workmanship across the full range of commercial flooring systems, backed by quality control and ITP documentation.
- No surprises: moisture risk identified and priced at tender, not discovered mid-project.
- A solutions-focused approach that supports project outcomes, not just installation.
- Responsive aftercare through the warranty period.

OUR VISION AND MISSION

Our vision

To be recognised nationally as a leader in service excellence, known for delivering flooring solutions that consistently exceed expectations.

Our mission

Lead with integrity and inspire others to do the same. We adapt to the evolving demands of today's construction market while anticipating the needs of our clients.

COMPLIANCE AND ACCREDITATION

QBCC Licence #1304150, active	Public liability \$20,000,000, QBE Certificate of currency on request	Workers compensation WorkCover Queensland, statutory Certificate of currency on request	Standards AS 1884:2021 AS/NZS 2455.1:1995
---	--	---	--

Area	What we provide
Safety documentation	Site-specific SWMS, RCS (silica) controls, H-class extraction and P2 respiratory protection on all grinding and preparation works
Quality	ITPs completed by level, moisture and level test records, product data and warranties
Handover	Structured handover packs: warranties, maintenance instructions and as-installed product schedules

OUR VALUES

Strive for excellence We exceed expectations and take pride in everything we deliver. Challenges are met with determination, accountability and resilience.	Unity and accountability We work collaboratively with clients, suppliers and our team, taking ownership of outcomes and delivering collective success.	Integrity and respect We foster a professional, respectful culture built on trust, transparency and ethical conduct.
---	--	--

SEND US YOUR NEXT PROJECT

Send the drawings, finishes schedule and program to our estimating team. We'll come back with an itemised price, any clarifications, and moisture risk identified up front.
